Both Bob Inman and I want to thank you for the major role you played in the recently completed Colloquium on Future Space Missions. The Civil Session which you chaired was certainly informative and the discussion was well stimulated by you as the moderator. Comments which I have received indicate that in many ways the Colloquium was successful and any success was in large part because of the contributions made by you and the other moderators. I agree with your comments about the conservative nature of some of the presentations and discussions but nevertheless I believe that most of the attendees benefitted substantially from the Colloquium.

I realize that you made an extra effort to fit the two days of the Colloquium into your busy schedule this time of year. Your presence and comments made a significant difference and we are all indebted to you.

A summary report on the Colloquium is being prepared and of course you will receive a copy upon its completion. I trust that you will find the document to be useful.

Sincerely,

John N. McMahon
